# NJ Datasets for Climate Change Education

**Learn how to integrate New Jersey-specific datasets into existing curricula
to effectively address the NJ Climate Change Student Learning Standards
and engage students in meaningful learning!**

Local Planning Navigator

A decision-support tool for building community resilience

NJ FloodMapper

An interactive flood exposure data mapping tool

NJ Forest Adapt

A data mapping tool for forest management

Adapting OpenSciED Curriculum

This webinar will highlight how science teachers can integrate NJ-specific datasets into OpenSciEd curriculum to address the NJ Climate Change Student Learning Standards and engage students by exploring information relevant to their daily lives. Presenters will share supplementary materials developed by Rutgers Center for Mathematics, Science, and Computer Education and Sustainable Jersey for OpenSciEd's Unit 7.6. *Earth's Resources & Human Impact* as a model.

May 2, 2024, 3:30pm - 5:00pm
